CUTCHOGUE, LONG ISLAND, NEW YORK

ESTABLISHED 1873 TELEPHONE: PECONIC 4-6755

To Our Friends and Customers:

With each copy of this, our 1959, catalog we wish to send you not only our very best wishes for a happy and prosperous New Year but also our sincere thanks for your cooperation and understanding during the past year.

Last year's catalog marked the end of an era. It was the last one for Dad or the Boss or Mr. Sterling (however you knew him) to publish after doing it each year for sixty years.

With the end of an era and the passing of time changes have come. As you look through this catalog you will note that the nursery department is again included. This has been done because the two businesses, one known as Sterling Nurseries, the other as Ralph W. Sterling, are now together and will continue in business under the name Ralph W. Sterling.

The seed department has been moved from the seed house to the garden center on the Main Road. In season small quantities of annual flower plants and vegetable plants will be available at the Garden Center. However, for those of you who want large quantities of these plants or perennials or greenhouse plants John will still be at his old stand and happy to serve you.

Our strawberry plants never looked healthier. They are strong, well-rooted plants and we have a good supply. However, we would appreciate your orders as early as possible.

If you have any problems with your gardens or shrubs or trees please feel free to stop in and discuss it with us. We will be glad to try to help you. Please remember that you are always welcome here at the Farm.

May you have the best of success with your gardening in 1959.

Sincerely yours,
The Sterling Family

DIRECTIONS

By careful reading and observing the following directions, mistakes will be largely avoided and your order can be filled more promptly.

Please use the enclosed Order Sheet and self-addressed envelope if possible. If you need more, let us know and we will be glad to send more to you.

Write your name, address and shipping directions plainly.

Always send the cash with your order, unless otherwise agreed upon. Money may be sent by P. O. Money Order, Bank Draft or Registered Letter. Stamps may be sent for amounts under \$1.00, but be sure to put in three-cent stamps, wrapped in waxed paper.

We pay the postage on all seeds sold by the pkt. and ounce. Quantities over that are priced net, to be shipped Parcel Post, freight or express, at purchaser's expense, unless otherwise stated.

If you desire your seed sent by Parcel Post, add 23c for the first lb. and 4c for each additional lb. of your order, allowing 3 lbs. extra for package. For amount of postage on plants see Plant Department. These rates are for anywhere on Long Island.

By pricing our seeds net, postage extra, you get your seeds delivered for less money than if we quoted a Postpaid price as the 23c per lb. extra would have to be counted in and added to each single lb. priced.

1/2 lbs. will be sold at lb. rates; 1/2 bu. at bushel rates.

No charge is made for packing or packages.

NOTE — In all orders received before April 15th we include trial packets of different kinds of seed, the number of packets depending upon the size of your order. If you find any of these of particular value, we would be pleased to hear of it.

If you cannot use this catalog or receive more than one, will you kindly pass it on to someone interested? Thank you.

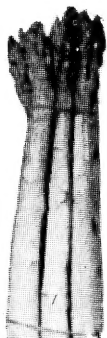

NOTICE — We give no warranty, express or implied, as to the productiveness of any seeds, bulbs or plants, sold by us, and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price.

Calverton, L. I.

Your tomato plants were the best of all kinds that we tried last year and we tried many kinds. — J. R.

Mattituck, L. I., Jan.

The best variety of tomato that we have found so far is the Burpee Big Boy. We stake them up and they are a picture when ripening; beautiful large, smooth fruit of excellent quality. — G. B.

LAWN GRASS SEED

Prices liable to change without notice. Blue Grass, Fescue and Red Top of highest quality are still high in price. We are making our prices as reasonable as possible considering quality. It is the very last fraction of 1% in purity that costs money. I believe that it pays big returns, too, as it is truer in seed than anything else that **"the best is none too good"**.

Four Special Mixtures of the highest grade Grass and Clover Seed on the Market. No Cheap Filler is ever used in our Mixtures.

	1 to 24 Lbs.	25 to 99 Lbs. per Lb.
STERLING LAWN SEED. We prepare this mixture ourselves at Sterling Farm, from the highest grade Highland Bent, Kentucky Blue Grass, Fancy Red Top, White Clover and Illahee Red Fescue. This mixture gives the very best satisfaction throughout Long Island. Quick growing and permanent. Use 3 to 5 Lbs. to 1,000 square feet 100 Lbs. or more at 98c per Lb.	\$1.00	\$.99
PARKWAY MIXTURE. This is my own mixture. It contains no White Clover, but a mixture of Highland Bent, Illahee Red Fescue, Kentucky Blue Grass and Fancy Red Top 100 Lbs. or more at \$1.03 per Lb.	1.05	1.04
SANDY SOIL LAWN SEED. A mixture doing well on light soil and in very dry places. Plenty of Fescue in this mixture. 100 Lbs. or more at 98c per Lb.	1.00	.99
SHADY LAWN. Where there is only partial shade, the other Lawn Grasses are all right, but where it is quite shady, use this special mixture. Five varieties of grass seed in this mixture. Use extra fertilizer in Spring and Fall to keep a good lawn in shade 100 Lbs. or more at 93c per Lb.	.95	.94
For a good, permanent lawn, use 1 Lb. lawn seed to 200 sq. ft., 100 to 120 Lbs. to the acre. For reseeding an old or poor catch, use half that amount:		
CHEWINGS FESCUE. Fine for pastures, lawns and sandy soil.....		\$.85
HIGHLAND BENT. Best Native Bent. Finest quality. Grows well in acid soil. One of the best for lawns. 99% pure.....		.75
ILLAHEE CREEPING RED FESCUE. Greener and finer than Chewings Fescue. Stands dry weather.		1.00
KENTUCKY BLUE GRASS. Does best on sweet soil. Fine for lawns, pastures and orchard. Superfine quality.95
MERION KENTUCKY BLUEGRASS. Use on heavier soils for that extra fine bluegrass lawn		2.85
PENNLAWN CREEPING RED FESCUE. Heat and disease resistant. Thick green lawn on sandy soil and in shade.		1.05
RED TOP. Fancy recleaned. Fine for lawns, new ground and pasture. Best grade.85
ROUGH BLUE GRASS. Poa Trivialis. Good for moist areas65
RYE GRASS. Perennial or English. For quick cover or lawn30
WHITE CLOVER. Fine for lawn and pasture. Purity 98%		1.10

High Quality Seed Produces Fine Lawns

Our lawn grass mixtures are blended from the very best grades of grass seed especially for our Long Island soils. These seeds are as clean and free of weeds as modern machines can manage. We sell many hundred pounds all over Long Island as there is no better grade seed on the market.

Loosen the soil for a new lawn to a depth of at least six inches. If the soil is heavy and inclined to bake, lighten it with peat moss or humus. If your soil is sandy add peat moss or humus to help hold the moisture. Most of our Long Island soils will need a dose of lime in preparation for a lawn. After the soil has been raked smooth fertilize at the rate of two pounds of nitrogen per 1000 square feet. Sheep Manure or Bone Meal are excellent organic fertilizers for this purpose as is the inorganic Scott's Turf Builder.

Sow as early in the Spring as the working of the soil permits so that cool weather and ample rainfall will insure complete germination and a good start for the seedlings before hot, dry weather comes. If seeding must be delayed, special precautions must be taken to prevent the soil drying out or else sow a temporary cover of perennial rye grass. Early Fall is a very desirable time to seed if moisture is sufficient.

Rake the seedbed carefully after sowing the seed so that it is lightly covered with soil. Then roll with a roller just heavy enough to firm the soil. Do not use too heavy a roller as that will compact the soil.

In reseeding an old lawn the seed must be covered by raking, or top-dressing with peatmoss and soil mixed or humus. Seed thrown on hard ground has no chance to grow and will merely wash off. All newly sown lawns should be kept moist by frequent, light sprinkling until the grass is ready to be mowed.

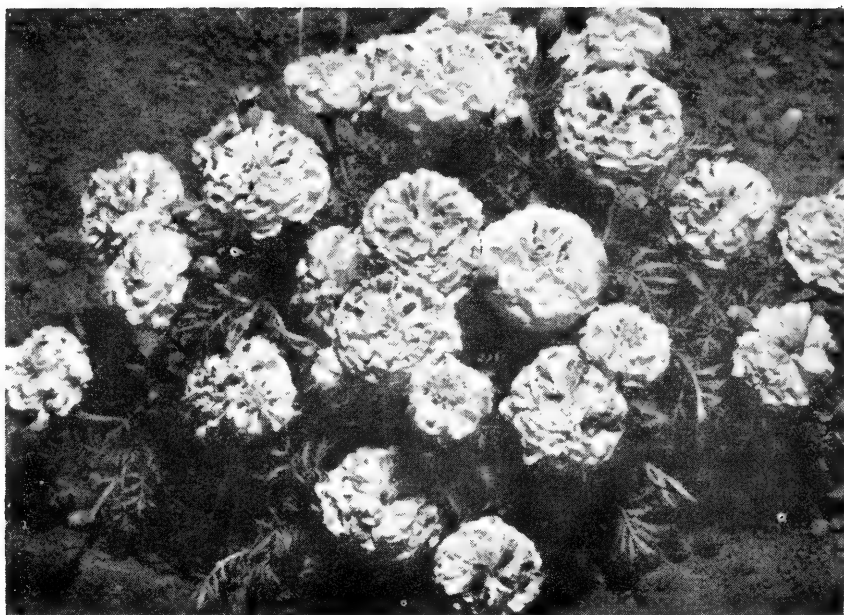

SCOTTS PICTURE BRAND. Gives elegant beauty, needs extra care. 1 lb. box \$1.65; 5 lb. box \$7.95

SCOTTS FAMILY BRAND. Good looks, wears well, needs moderate care. 1 lb. box \$1.35; 5 lb. box \$6.45; 20 lb. bag \$24.95

SCOTTS CLASSIC BRAND. For extra beauty on heavy soils in full sun. 1 lb. box \$2.50; 2½ lb. box \$5.95.

SCOTTS PLAY BRAND. Extra sturdy grass with minimum care. 1 lb. box \$1.25; 5 lb. box \$5.95

PLANT DEPARTMENT

Our Strawberry bed for 1959

STRAWBERRY PLANTS

Our Strawberry Plants for 1959 are all raised from Virus Free stock, except Jersey Belle, a new variety. We sprayed them and kept them free from insects and disease and they made a nice healthy growth with large crowns and good healthy roots. Come look our stock over.

Our stock of strawberry plants is extra fine this year.

9 varieties listed in order of ripening

	25	100	300	1000
EARLIDAWN. Very Early, Heavy Producer. Good Flavor.	\$.75	\$2.50	\$6.00	\$18.00

ROBINSON. Midseason, Large Heavy yielding75	2.50	6.00	18.00
SPARKLE. Late. Fine quality. Good freezing75	2.50	6.00	18.00
JERSEY BELLE. New, Late. Fine quality, good keeper. Does best on heavy soil.75	2.50	6.00	18.00

All the above except Jersey Belle are grown from Virus Free plants on fresh ground. We found in our trials in 1955 that the varieties grown from Virus Free stock was the heaviest yielding of all the kinds that we had.

All of the above kinds have perfect blossoms and can be set out alone if desired, but it is better to have 2 or 3 kinds for better polinization.

Field of Mary Washington Asparagus

ASPARAGUS ROOTS

Our Asparagus Roots are nice, large healthy roots grown under irrigation from re-selected seed and will make you a successful bed in 1 to 2 yrs. time.

Doz. 100 1,000

MARY WASHINGTON. One of the largest, most productive and finest flavored Asparagus yet developed. Very high branching, which makes it the best for cutting green. Rust-resistant.

One year old roots. Large	\$.40	\$2.50	\$15.00
Two-year old roots. Very large crowns60	2.90	17.50

Set out our Sterling Grown Roots this year, about six inches below the surface of the ground. Cover with about two inches of soil. As the plants grow up, fill trench with well-rotted manure and more soil, and some good fertilizer on top of that. Do not put fertilizer next to any kind of root or plant if you want them to live. Set your Asparagus Roots out as early in the Spring as possible.

Postage on Asparagus Roots: Please send 30c per doz., 40c per 2 doz., 60c per 100 on 1yr. old roots.

Setauket, N. Y., March 30,

I bought some 2 year old Mary Washington Asparagus roots from you two years ago and they grew fine. I cut from them last year and they have made wonderful growth.

MORaine LOCUST

Plant Pat. No. 836

The famed Moraine Honeylocust is guaranteed thornless and seedless. It provides healthy, fresh, green foliage throughout the growing season. A wide spreading vase-shaped tree of exceptional beauty, the Moraine Locust is long-lived, strong and resistant to storm damage.

We have sturdy, 6 to 8 ft. trees, nicely branched at \$8.75 each. This is the bare root price and is for Spring only.

"CRIMSON KING" MAPLE

Plant Pat. No. 735

The most vivid and colorful of all purple leaved maples. Retains its bright, rich color throughout the entire season. We have a good supply of sturdy, straight 6 to 8 ft. trees especially priced at \$6.50 each. This is the bare root price and is for Spring only. We also have larger sizes on hand.
